PROFILE

Full Stack Developer with 3+ years of experience in building and deploying scalable web applications. Proficient in JavaScript, React.js, Node.js, Express.js, and RESTful APIs with strong expertise in MongoDB, and PostgreSQL. Skilled in responsive UI design, cross-browser compatibility, and performance optimization. Hands-on experience with Git. Proven ability to collaborate with cross-functional teams to deliver secure, high-quality, and user-focused solutions.

WORK EXPERIENCE

Full Stack Developer   2021-- PRESENT
Freelancer

- Develop a clean and user-friendly To-Do application allowing users to add, update and delete tasks. Focused on intuitive UI and smooth state management for an efficient user experience.
- Develop a standard calculator using HTML, CSS, and JavaScript with standard arithmetic operations and a clean, user-friendly interface..
- Created a Facebook look-alike application with features such as News Feed, User Posts, and Profile Page.
- Worked on backend development for a US-based Zoo management system. Created full CRUD, APIs to manage animals, staff, and enclosure data using RESTful standards and database integration.
